- Published daily quizzes using QSM and Forminator plugins, ensuring engaging and interactive content delivery.
- Designed and maintained registration forms for awareness sessions, streamlining participant data collection.

EDUCATION

Bachelors of Computer Science

Sukkur IBA University | 2022 - 2026 (Expected)

- Scholarship: Sindh Talent Hunt Program (STHP)
- CGPA: 3.69

PROJECTS

AI-Powered Gesture Recognition & Sign Language Interpretation

Feb 2025 - April 2025

- Developed a real-time sign language recognition system using CNNs, achieving 96% accuracy on ASL and LeapGestRecog datasets.
- Built a translation tool with MediaPipe and TensorFlow for automated text/audio output, enhancing accessibility for the deaf community.

Content Management System - CMS

Feb 2024 - May 2024

- Developed a Java-based Content Management System (CMS) for universities to streamline tasks for teachers, admins, and students.
- Enabled functionalities such as managing user accounts, marking attendance, assigning grades, and viewing academic records with ease.

Snake Safari

Feb 2023 - April 2023

- Developed a desktop game inspired by the classic Nokia Snake game using Java.
- Integrated MySQL to manage user data, high scores, and game progress for an enhanced user experience.
